5. At DCDC we keep track of the Challenge winners and we do not allow the Bronze Champions to register in Bronze Championships after winning it twice. This motivates great dancers to move on to the next level, and create space for the less experienced Bronze competitors to win.

5. You have the option of being judged Contested or Uncontested in each level. Even thou you will get numeric scores in every entry.

Contested Entries are placed based on comparison of judges numeric scoring (0-100) among contested competitors. The highest score will be placed first and so on. Uncontested Entries are scored against the standard on the level in which you are dancing. The score is then converted to a 1st, 2nd, or 3rd placement by threshold. In addition, you can enter in Closed or Open Events. Our scoring system will always provide our competitors further feedback indicating how close you are from your competitors and the standards expected for your level and age group.

6. Closed entries must strictly adhere to the figures in the syllabus level in which you are entered (Bronze I- half or Bronze II--full), and Open Bronze entries allow you to use more creativity without adhering to the school figures. Music for these entries will be played at strict tempo for the specific style being danced. The syllabi accepted (for closed levels) are NDCA, USISTD and DVIDA
